FERODO RACING'S NEW STANDARD: CPR0

Sandro Cortese – Kallio Racing Team – won the 2018 Supersport World Championship relying on Ferodo **CPR0** brake pads!

Developed from Ferodo's extensive racing heritage, **CPR0 compound** provides the performance and modulation required by the world's best riders.

PADS & SHOES

Ferodo's organic and sintered brake pads & shoes provide the performance and modulation appreciated by the world's best riders.

Composed of pressed metal powders which have been fused together at very high temperature

Sinter Grip Compounds

FDB**ST** 

For high performance road use

FDB**SM** 

For maxiscooter road use

FDB**SG** 

For off-road use

FDB**XRAC** 

For race use

Carbon based composites bound together with an organic resin

Carbon Grip Compounds

FDB**AG** 

For scooter road use

FDB**EF** 

For road, race use on rear brake, and off-road use

FDB**P** 

For road, race use on rear brake, and off-road use

FDB**PRP** 

For road use in combination with polished rotor (PRP = Polished Rotor Pad)

Carbon based composites bound together with a ceramic resin

Ceramic Grip Compound

FDB**CP1/CPR0** 

For race use

COMPARISON CRITERIA

Friction level

Overall average friction coefficient.

Bite

Initial friction at the start of the stop.

Fade Resistance

Resistance to drop-off in friction coefficient under severe braking conditions.

Controllability

How easy the brake is to modulate.

Pad Life

How long the pad lasts

Disc Life

The life of the disc taking into consideration not only the reduction in thickness due to wear, but also maintenance of good surface condition.

Wet Braking

The effectiveness of the material in wet conditions.

Comfort

The amount of brake squeal and other vibration generated during the braking event.

Pad Life in mud

Important for off-road bikes

All test results above are based on various internal and external performance and riding tests including specific personal recommendations by experienced test riders.

ACCESSORIES

FBG001 BRAKE GREASE

FBG001 Ferodo brake grease is a mounting paste based on high viscosity silicon oil, containing also pure natural graphite.

It can help reduce:

VIBRATION

SQUEAL & NOISE

Ferodo brake grease has excellent lubricity and damping properties. By applying to the pad backplate, you can reduce the transmission of friction vibration from the pad to the piston thus reducing brake vibration and squeal.

Each tube contains **50g** of grease

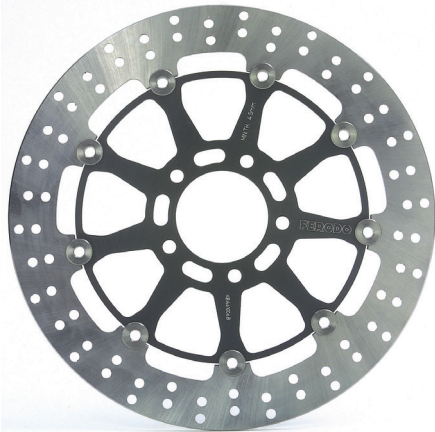

FBA574 BRAKE SHIM

Ferodo FBA574 is a universally applicable anti-noise shim set. Each kit is composed of 4 rubber shims with adhesive (exposed with peel-off paper).

Composition:
3M 468MP
with 200 MP adhesive

Dimensions:
95x60 mm

RX

 A full floating disc, alloy carrier, designed to eliminate warping from overheating.

 Flottanti con campana in lega leggera, concepito per eliminare distorsioni derivate da calore. Intercambiabili agli originali.

 Vollschwimmend gelagerte Bremsscheibe mit Aluminiumträger, konstruiert um Verzug durch Überhitzung zu verhindern.

 Disque flottant avec frette centrale en alliage, conçu pour éviter le voilement en cas de surchauffe du disque.

 Disco flotante con campana en aluminio, no "warping". Intercambiable con los discos originales.

 All discs are manufactured with heat treated, high carbon stainless steel that provides:

- Higher friction coefficient
- Improved wear for both disc and brake pad
- Lighter weight
- Increased strength

 Alle Bremsscheiben sind aus Wärme behandeltem Kohlenstoffstahl. Das gewährleistet:

- Einen höheren Reibungskoeffizienten
- Verbesserte Verschleißfestigkeit von Belag und Scheibe
- geringes Gewicht
- Verbesserte Haltbarkeit

RF

 A full floating disc, steel carrier, designed to eliminate warping from overheating.

 Flottanti con campana in acciaio. Intercambiabili agli originali.

 Vollschwimmend gelagerte Bremsscheibe mit Stahlträger, konstruiert um Verzug durch Überhitzung zu verhindern.

 Disque flottant avec frette centrale en acier, conçu pour éviter le voilement en cas de surchauffe du disque.

 Discos flotantes con campana de acero inoxidable, no "warping". intercambiable con los discos originales.

 Tutti i dischi sono prodotti sono in acciaio con un elevato contenuto di carbonio che garantisce:

- un livello d'attrito più alto
- una ridotta usura delle pastiglie e dello stesso disco
- un minor peso
- maggiore robustezza

 Tous les disques de frein Ferodo sont fabriqués en acier inoxydable à haute teneur en carbone.

- Ils garantissent:
- Un meilleur coefficient de friction
 - Une moindre usure du disque et des plaquettes de frein
 - Un poids minimal
 - Une plus grande robustesse

R

 A standard, one piece disc, designed to increase performance and wear over OE.

 Dischi fissi intercambiabili agli originali.

 Einteilige Standardscheibe mit verbesserter Leistung und Haltbarkeit.

 Disque fixe standard en une pièce, conçu pour augmenter et améliorer performance de freinage et usure par rapport au matériau d'origine.

 Disco fijo intercambiable al original, mejor coeficiente de fricción y menor desgaste.

Ferodo discs are the perfect replacement choice.
They are available for your motorcycle in an upgraded version of the OE disc.
The style offered depends on which type of disc was originally specified for your bike.

RPF

-  Disc with steel carrier, designed to achieve minimum "warping", with the additional "polished" treatment providing the high aspect required for a custom bike.
-  Dischi con campana in acciaio concepiti per evitare distorsioni del disco opportunamente lucidati per applicazioni custom.
-  Bremsscheibe mit Stahlträger, um ein Minimum an Verzug zu gewährleisten. Mit polierter Oberfläche für die hochwertige Optik an Ihrem Custom Bike.
-  Disque flottant avec frette centrale en acier, conçu pour éviter le voilement en cas de surchauffe du disque, avec traitement additionnel de polissage, particulièrement recherché pour son aspect brillant requis pour les motos de type "Custom".
-  Discos flotante con campana de acero inox, evita cualquier deformación del disco durante la frenada. Pulido especial indicado para cualquier aplicación custom.

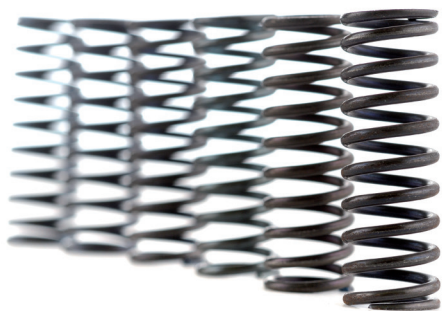

MXR

-  New discs range for motocross applications. Patented dirt expulsion system means braking consistency, even in the muddiest conditions.
-  Nuova gamma dischi per applicazioni motocross. Il sistema di pulizia a fori svasati assicura continuità di frenata, anche in presenza di fango.
-  Das neue Bremsscheiben Programm für den Motocross-Einsatz mit patentiertem Schmutzabweisungs-System. Gewährleistet konstante Bremsleistung auch unter matschigsten Bedingungen.
-  Nouvelle gamme disques pour applications motocross. Le système de propreté aux trous évasés assure continuité de freinage, aussi en présence de boue.
-  Nueva gama de discos de freno para motocross. El sistema patentado de limpieza con agujeros estrechados en el disco preserva la frenada, también en las condiciones más extremas de barro.

-  Todos los discos de freno Ferodo son de acero inoxidable con elevado contenido de carbono que asegura:
 - Elevado coeficiente de fricción
 - Bajo consumo del disco y de la pastilla
 - Material del disco (acero) más ligero y robusto

STANDARD

FSS XXXX

-  Spring kits.
-  Kit molle frizione.
-  Feder- kits.
-  Kit de ressorts d'embrayage.
-  Kit muelles embrague.

RACING FRICTION PLATES

The material has unique characteristics that guarantee excellent performance even during the most severe use. The friction material does not contain rubber or cork hence reducing the problem of sticking or slippage.

Ferodo recommend that new friction plates are immersed in engine oil for two hours before use. This allows the material to absorb oil which increases the life of the component.

Note: The racing plates consist of two standard plates that must be mounted one at each end of the clutch set.

FCD XXXX

-  Set of standard friction plates.
-  Dischi frizione conduttori con materiale d'attrito standard.
-  Kupplungs-scheibensätze mit standard-reibmaterial.
-  Série de disques d'embrayages garnis de matériau de friction standard.
-  Serie completa de discos de embrague forrados con material de fricción estándar.

DISCHI FRIZIONE RACING

Il materiale utilizzato possiede caratteristiche uniche che permettono alle frizioni Ferodo di avere performance eccellenti anche nelle condizioni di utilizzo più difficili. Il materiale d'attrito non contiene sughero o gomma, evitando in questo modo qualsiasi problema di incollaggio e slittamento.

Ferodo raccomanda che i nuovi dischi frizione vengano immersi per un paio d'ore in olio motore prima di essere utilizzati. Questo permette al materiale di assorbire una certa quantità d'olio incrementando così la vita del componente.

Nota: la serie dischi conduttori racing comprende due dischi standard che devono essere montati uno all'inizio e l'altro alla fine della serie.

HIGH PERFORMANCE

FCD XXXX/1

-  Set of racing friction plates.
-  Dischi frizione conduttori con materiale d'attrito racing.
-  Racing kupplungs-scheiben mit reibscheiben in rennmaterial.
-  Série de disques d'embrayages garnis de matériau de friction racing.
-  Serie completa de discos de embrague forrados con material de fricción racing.

MOTORSPORT-UPPLUNGSSCHEIBEN

Das verwendete Material gewährleistet auch unter höchster Beanspruchung beste Leistung. Das Reibmaterial beinhaltet weder Kork noch Gummi, dadurch gibt es kein Verkleben und Rutschen.

Ferodo empfiehlt, die neuen Kupplungsringe einige Stunden vor Erstbenutzung in ein Ölbad zu legen. Dadurch kann das Öl ins Material eindringen und steigert die Lebensdauer.

Merke: Der Kupplungs-scheibensatz enthält zwei Standard Ringe, wovon eine am Anfang und eine am Ende des Kupplungs-paketes montiert wird.

Ferodo clutch components are manufactured to the highest European quality standards and utilise only premium quality materials.

STANDARD

FCS XXXX/2

-  Complete sets of steel plates and standard friction plates.
-  Serie completa dischi frizione condotti in acciaio e conduttori con materiale d'attrito standard.
-  Komplette kupplungsätze mit stahlreibrscheiben und reibrscheiben in standardmaterial.
-  Série complète de disques d'embrayages lisses en acier et garnis de matériau de friction standard.
-  Serie completa de discos de embrague forrados con material de fricción estándar y discos en acero inox.

DISQUES D'EMBRAYAGE RACING

Le matériau utilisé possède des caractéristiques uniques qui permettent aux embrayages Ferodo de maintenir d'excellentes performances, même dans les conditions d'utilisation les plus difficiles. Le matériau de friction ne contient ni liège, ni caoutchouc, évitant ainsi toute possibilité de collage et de patinage.

Ferodo recommande que les nouveaux disques soient immergés pendant deux heures dans de l'huile moteur avant d'être utilisés. Ceci permettra au matériau de friction d'absorber une certaine quantité d'huile afin d'augmenter la durée de vie du produit.

Note: La série de disques garnis de matériau de friction racing comprend deux disques standards qui doivent être montés, l'un au début et l'autre à la fin de la série.

HIGH PERFORMANCE

FCS XXXX/3

-  Complete sets of steel plates and racing friction plates.
-  Serie completa dischi frizione condotti in acciaio e conduttori con materiale d'attrito racing.
-  Racing komplette kupplungsätze mit stahlscheiben und reibrscheiben in rennmaterial.
-  Série complète de disques d'embrayages lisses en acier et garnis de matériau de friction racing.
-  Serie completa de discos de embrague forrados con material de fricción racing y discos en acero inox.

DISCOS DE EMBRAGUE RACING

El material utilizado posee características únicas que permiten que los embragues Ferodo tengan unas prestaciones excelentes incluso en las condiciones de utilización mas severas. Los materiales de fricción no contienen ni corcho ni goma, evitando los posibles problemas de despegue o arrastre.

Ferodo recomienda que antes de montar los discos de embrague, se sometan estos a un baño de aceite de motor durante 2 horas aprox. De esta forma el material puede absorber una cierta cantidad de aceite que proporcionará una mayor vida a los discos de embrague.

Nota: La serie de discos de compuesto racing incorporan 2 discos estándar que se deben de montar uno al inicio y otro al final del paquete de embrague.

SCOOTERS

FCG XXXX

-  Complete kits of centrifugal clutches and bells for scooter applications.
-  Kit completo girante frizione e campana per scooter. Assicura il perfetto accoppiamento dei due componenti.
-  Glocken- und fliehkraftkupplung für scooter sichert das perfekte zusammenspiel beider komponenten.
-  Kit complet d'embrayage centrifuge et cloche d'embrayage pour scooters. Assure le parfait accouplement des deux composants.
-  Kit completo de rodillos de fricción y campana para scooter. Asegura el perfecto acoplamiento de los 2 componentes.

FERODO®

BRAKE FLUIDS

All fluids are of Glycol ether based composition, and are suitable for brake and clutch use. Additionally they have the following characteristics:

		DOT4	DOT5.1	Ferodo Formula	Ferodo Super Formula
Technical Details: Typical measured values	Dry boiling point (°C)	248	270	310	328
	Wet boiling point (°C)	159	185	205	200
	Kinematic Viscosity (cSt)	1250	800	1650	1500
Availability	0,25 litre	FBX025	FBZ025	n/a	n/a
	0,50 litre	FBX050	FBZ050	DSF050	FSF050
	1 litre	FBX100	FBZ100	n/a	n/a
	5 litres	n/a	FBZ500	n/a	n/a

Bottles are sold in complete boxes only

	Box = 24 bottles
	Box = 12 bottles
	Box = 4 bottles

WARNING

Recommended for use by experienced mechanics only.

Contains polyalkylene glycol ether and other esters. Keep out of reach of children. Avoid excessive skin contact. If swallowed, seek medical advice and show the container. In case of eye contact, flush with water for 10 minutes.

DOT 4

- Recommended for road use
- Adheres to DOT 4 (and DOT 3) specification
- Low viscosity, low corrosion and low rubber swell
- Available in 3 bottle sizes, including 250ml
- Perfectly suited to motorcycle road use, where peak temperatures do not necessitate more expensive products

DOT 5.1

- Recommended for road use
- Adheres to DOT 5.1 specification
- Very low viscosity means ideally suited for ABS / ESP braking systems
- Low viscosity down to -40°C optimises performance under all conditions
- Available in 4 bottle sizes
- Low corrosion
- Very low rubber swell

FERODO FORMULA

- Recommended for track day & race use
- High wet and dry boiling point
- Low corrosion
- Low rubber swell
- Low viscosity for a race fluid (falls within DOT 4 road spec allowing road use)

FERODO SUPER FORMULA

- Premium Product
- Recommended for race use
- Market leading high wet and dry boiling point
- Very low corrosion, with additives to render more compatible with Mg components
- Low rubber swell
- Super-low viscosity for a race fluid of such high B.pt. (falls within DOT 4 road spec allowing road use)
- Super high lubricity reduces clutch component wear even in problem applications

SUPERIOR PERFORMANCE

DOT 4

Bottles of 250 ml, 500 ml, 1 l

- Perfectly suited to motorcycle road use, where peak temperatures do not necessitate more expensive products
- Adheres to DOT 4 (and DOT 3) specification
- Low viscosity, low corrosion and low rubber swell
- Recommended for road use
- Available in 3 bottle sizes, including 250ml

Technical details

- Dry boiling point: 248 °C
- Wet boiling point: 159 °C
- Kinematic Viscosity (Cst): 1250

* It is recommended that in those applications where sintered pads are supplied as Original Equipment, replacement pads should also be of sintered composition.

** To avoid brake imbalance sintered pads fitted in rear calipers should only be used in combination with front calipers containing sintered pads.

* It is recommended that in those applications where sintered pads are supplied as Original Equipment, replacement pads should also be of sintered composition.

** To avoid brake imbalance sintered pads fitted in rear calipers should only be used in combination with front calipers containing sintered pads.

* It is recommended that in those applications where sintered pads are supplied as Original Equipment, replacement pads should also be of sintered composition.

** To avoid brake imbalance sintered pads fitted in rear calipers should only be used in combination with front calipers containing sintered pads.

* It is recommended that in those applications where sintered pads are supplied as Original Equipment, replacement pads should also be of sintered composition.

** To avoid brake imbalance sintered pads fitted in rear calipers should only be used in combination with front calipers containing sintered pads.

HARLEY DAVIDSON

* It is recommended that in those applications where sintered pads are supplied as Original Equipment, replacement pads should also be of sintered composition.

** To avoid brake imbalance sintered pads fitted in rear calipers should only be used in combination with front calipers containing sintered pads.

* It is recommended that in those applications where sintered pads are supplied as Original Equipment, replacement pads should also be of sintered composition.

** To avoid brake imbalance sintered pads fitted in rear calipers should only be used in combination with front calipers containing sintered pads.

* It is recommended that in those applications where sintered pads are supplied as Original Equipment, replacement pads should also be of sintered composition.

** To avoid brake imbalance sintered pads fitted in rear calipers should only be used in combination with front calipers containing sintered pads.

* It is recommended that in those applications where sintered pads are supplied as Original Equipment, replacement pads should also be of sintered composition.

** To avoid brake imbalance sintered pads fitted in rear calipers should only be used in combination with front calipers containing sintered pads.

* It is recommended that in those applications where sintered pads are supplied as Original Equipment, replacement pads should also be of sintered composition.

** To avoid brake imbalance sintered pads fitted in rear calipers should only be used in combination with front calipers containing sintered pads.

* It is recommended that in those applications where sintered pads are supplied as Original Equipment, replacement pads should also be of sintered composition.

** To avoid brake imbalance sintered pads fitted in rear calipers should only be used in combination with front calipers containing sintered pads.

* It is recommended that in those applications where sintered pads are supplied as Original Equipment, replacement pads should also be of sintered composition.

** To avoid brake imbalance sintered pads fitted in rear calipers should only be used in combination with front calipers containing sintered pads.

* It is recommended that in those applications where sintered pads are supplied as Original Equipment, replacement pads should also be of sintered composition.

** To avoid brake imbalance sintered pads fitted in rear calipers should only be used in combination with front calipers containing sintered pads.

* It is recommended that in those applications where sintered pads are supplied as Original Equipment, replacement pads should also be of sintered composition.

** To avoid brake imbalance sintered pads fitted in rear calipers should only be used in combination with front calipers containing sintered pads.

* It is recommended that in those applications where sintered pads are supplied as Original Equipment, replacement pads should also be of sintered composition.

** To avoid brake imbalance sintered pads fitted in rear calipers should only be used in combination with front calipers containing sintered pads.

* It is recommended that in those applications where sintered pads are supplied as Original Equipment, replacement pads should also be of sintered composition.

** To avoid brake imbalance sintered pads fitted in rear calipers should only be used in combination with front calipers containing sintered pads.

Traockenkupplung
Embrague seco

ISTRUZIONI / KEY TO TEST / ESPLICACIONES DES REFERENCES / ERLÄUTERUNGEN / INSTRUCCIONES

FCDxxxx serie dischi conduttori Frizione a secco / Frizione a bagno d'olio
 FCSxxxx serie dischi conduttori + condotti (ricambio per campana a 48 denti)
 KFCDxxxx kit campana frizione + serie dischi

IT

	nr pezzi	spessore	nr denti	descrizione	anima disco	materiale di attrito
A	x	xx	xx	disco conduttore	acciaio/alluminio	sinterizzato/organico
B	x	xx	xx	condotto piatto	acciaio	-
C	x	xx	xx	condotto bombato	acciaio	-

Spessore totale pacco dischi ... mm

Per una corretta sequenza di montaggio, prestare attenzione al verso della bombatura dei dischi condotti.

FCDxxxx set friction plates Dry clutch / Oil immersed clutch
 FCSxxxx set friction plates + plain plates (replacement part for 48 tooth housing)
 KFCDxxxx clutch basket + plate pack

EN

	nr of pcs	thickness	nr of teeth	description	plate core material	friction material
A	x	xx	xx	friction plate	steel/aluminium	sintered/organic
B	x	xx	xx	flat plain plate	steel	-
C	x	xx	xx	dished plain plate	steel	-

Total pack height ... mm

To ensure correct assembly, pay special attention to the dished back of the plain plates.

FCDxxxx jeux disques garnis Embrayage à sec/ Embrayage à bain d'huile
 FCSxxxx jeux disques garnis + lisses kit (pièce de rechange adaptable pour cloche à 48 dents)
 KFCDxxxx cloche embrayage + jeux disques

F

	Q. pieces	épaisseur	nr dents	description	support du disque	matériel de friction
A	x	xx	xx	disque conducteur	acier/alluminium	sinter/organique
B	x	xx	xx	disque plat	acier	-
C	x	xx	xx	disque bombé	acier	-

Epaisseur total du jeux des disques ... mm

Pour un montage correct faire attention au bon positionnement des disques lisses bombés.

FCDxxxx Satz kupplungscheiben Trockenkupplung / Ölbادهkupplung
 FCSxxxx Satz reib- + trennscheiben (Ersatzteil für 48-zähne gehäuse)
 KFCDxxxx kupplungsgehäuse + scheidensatz

D

	stück-zahl	stärke	zähne-zahl	beschreibung	kernmaterial	reibmaterial
A	x	xx	xx	reibscheibe	stahl/alluminium	sintermetall/organischer stoff
B	x	xx	xx	trennscheibe	stahl	-
C	x	xx	xx	frontscheibe	stahl	-

Gesamtstärke des satzes ... mm

Für die richtige montagerihenfolge passen sie auf die seite der frontscheibe auf.

FCDxxxx Juego de discos embrague Embrague en seco / Embrague en baño de aceite
 FCSxxxx Juego de discos embrague + separadores (Recambio campana 48 dientes)
 KFCDxxxx Kit campana + juego de discos

E

	nr piezas	espesor	nr dientes	descripcion	alma del disco	materiale del embrague
A	x	xx	xx	disco separador	acero/aluminio	sinterizado/organico
B	x	xx	xx	separador plano	acero	-
C	x	xx	xx	separador abombado	acero	-

Espesor total del paquete ... mm

Para una correcta secuencia de montaje, prestar atención a la forma abombada del disco intermedio.
