

## LEVERS

## Levers

## PRODUCT RANGE

We put at your disposal the widest range of OEM type levers under our brand, Vparts. More than 600 different models of levers for most of the motorcycles in the market, scooters, and quads/ATV. Our range includes front/back brake levers and clutch levers, available on black and silver colours. Furthermore our Off Road range offers different

finishes as the requested forged levers (which prevent breaking in the event of a fall by folding themselves and come back easily to their original form) and different length adapted to the type of use and pilot requirements.

## Lever protectors

### REF.43118

For Universal Pro guard. These pro guards adapters are suitable for any handlebar with inner diameter 13-23mm

## Racing levers

A comprehensive test carried out has shown that when riding motorcycles at high-speed the friction force exerted by the air on levers reduces moto performance capacity.

Effective laboratory studies and controls have managed to create a new lever model. Especially efficient at high speed. These new levers have been designed with the latest technology taking particular account of the MAKEet needs and based on top level competition.

Colour: Full Black (red regulator)

Sold individually

Pack: Blister

### ARTICULATED

As far as the construction of the lever is concerned, if a fall occurs, the arm lever will fold to avoid getting break and a possible injury on hand.

### ANODISED ALUMINIUM

Aluminum is an ideal material for this kind of parts, it provides an ultra-light weight for the best performance. If we anodized aluminum with an electrochemical process that converts the metal surface into a decorative, durable, corrosion-resistant, anodic oxide finish results in the perfect lever for motorbikes.

### CNC MECHANIZED

The manufacture of the lever is highly mechanized, employing a numeric control nothing is left to chance. As a result, through the most advanced processes and treatments the lever gets its final aerodynamic and strong form.

### ADJUSTABLE

6 quick adjust levels enhance vehicle performance and functionality ensuring the reliability and maximum durability of the engine. Besides, your braking will be always accurate and in perfect harmony with the gear box.
